Attention Health Care Providers

Let's chat about:

Close contacts of persons diagnosed with TB disease: What primary care providers need to know

Join us for this 1 hour webinar for health care providers.

Mark your calendar!

December 4, 2023
12pm - 1 pm

Due to an increase in TB disease in Maine, primary care providers may see more close contacts presenting for evaluation and screening.

During this webinar, we will cover:

- The epidemiology of TB in Maine.
- Maine CDC's role in TB care and contact investigation.
- Recommendations for evaluation, screening, and treatment for patients who have been identified as close contacts of persons diagnosed with TB disease.
- How to report suspect TB cases and make referrals for LTBI treatment.

Presenters include Maine CDC staff and TB consultants (infectious disease doctors) from Maine.
