## Call for Volunteers – Join Us and Make a Difference!

Dear School Nurses,

We are excited to announce that The Maine Immunization Program has partnered with Docket for Schools and is seeking volunteers to help test a brand-new application that will benefit school nurses across Maine.

The Docket for Schools module is an application that simplifies access to student immunization records and streamlines compliance reviews. Beginning in the 2025-26 school year, the module will be a required tool for school nurses, providing standardized immunization reporting and tracking. This initiative will also support year-round compliance oversight for both the Maine Department of Education and the Maine Immunization Program.

As a volunteer, you will have the opportunity to review, test and provide feedback on the Docket for Schools module before its statewide launch. Your participation will play a crucial role in helping us improve immunization compliance and make a positive difference in the health of Maine's students.
