

School Nurse Information Portal

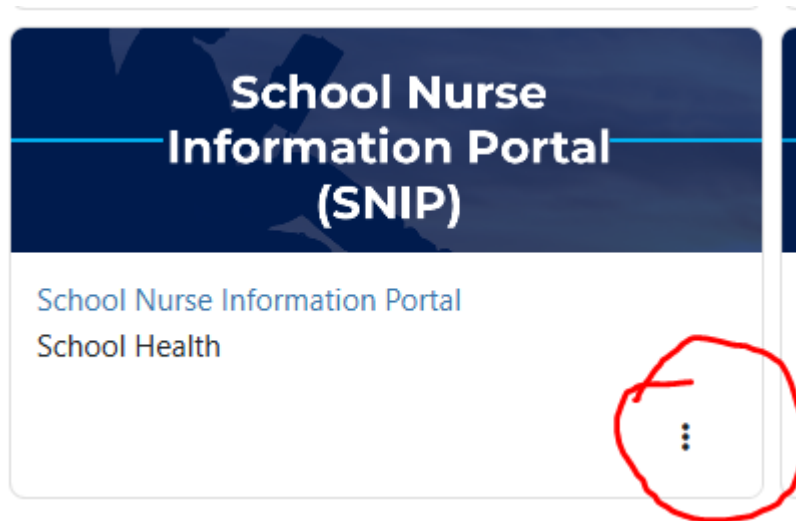

Starting in the 2025-2026 school year, there will be a new “listserv” for communications from me and my team. If you are part of the School Nurse Listserv, your email will be added to the new [“School Nurse Information Portal”](#) which is housed in a platform called EnGiNE.

Developed by the Maine Department of Education as part of the Rethinking Responsive Education Ventures (RREV) initiative, EnGage INnovation in Education (EnGiNE) is an online hub designed to engage innovation in education across Maine. With a growing library of curriculum resources, professional learning modules, and tools for collaboration, EnGiNE empowers Maine educators to share and develop creative solutions to 21st-century learning challenges.

Once your email is added, you will receive an email from a “do not reply” address that is noreply@learn.moodle.rrev-engine.com that says you have been added. It is likely to say it is from a person named Jonathan Graham or Elaine Bartley. It will tell you to create an account and download the app. Ignore the statement about downloading an app, as it will not be helpful. EnGiNE is still in development, so some of these kinks are still being worked out. **You do need to create an account if you don’t already have one.** The email will look like this:

Some of you may already have an account in EnGiNE if you have taken part in the Vision Screening Guidelines learning module. If you already have an account, you should be able to log in and see “School Nurse Information Portal” as an option in “My Courses”. Click on the course to confirm. You can also “star” a course so that it will always show up on your dashboard. This is highly recommended. To do that, click on the 3 bullets shown below and select “star this course”.

When a message is sent by someone from the team, it will be delivered to your inbox. Once you receive a message, it would be a good idea to add the email address as a contact to help prevent any filter sending it to your spam/junk folder.

I recommend you create a shortcut in your browser for this landing page:
<https://learn.moodle.rrev-engine.com/my/index.php>

If you have any questions specific to the [School Nurse Information Portal](#), reach out to Emily directly. With questions about other opportunities within EnGiNE, email that team at DOE.EnGiNE@maine.gov
