

### About

Thrive is a rapidly growing technology solutions provider focused on Cloud, Cybersecurity, Network Management and Optimization, Disaster Recovery and Compliance Based Solutions.

Our corporate culture, engineering talent, customer-centric approach, and focus on NextGen services help us stand out among our peers.

Thrive is on the lookout for individuals who don't view their weekdays spent at "a job", but rather look to develop valuable skills that ignite their passion and lead to a CAREER.

**If you're seeking the guidance, training and experience necessary to build a lucrative career, then welcome to Thrive!**

## Welcome to Thrive's Apprentice Program

Thrive's apprentice program is a program within the Managed Services space. As an aspiring student of technology, you can enter the 1-year Thrive Apprentice technology program. This program combines full time employment with online training and certification.

The Apprentice program is designed to teach you every facet of the Managed IT Services industry and provide you the freedom to find which wing of technology suits you best. Thrive provides the opportunity to be mentored by experienced technologists, gain certifications and establish a career in technology.

### Year 1: Mentored training and work

- Full time employment
- Increasing compensation as you learn
- Full benefits
- Earn your A+ certifications
- Earn Microsoft certifications
- Learn customer service basics
- Master the basics of customer focused troubleshooting

### Year 2: Program Completion and Certification

- Transition to the ThriveU promotion path
- Set your path to advancement in Thrive

## Why Thrive's Apprentice Program?

Thrive's program provides both structure and autonomy. Thrive is a place where you can learn individually, but also rely on a team and mentor when needed. Thrive is a program where you can follow a path and create your own. Thrive's program is a true entry level job, building experience, certification, and knowledge as you learn. The more relevant question is: Why not ThriveU?
