

# Nature-Based Solutions for Climate Resilience

## Watershed Academy Webcast

**Tuesday, March 26<sup>th</sup>, 2024**

**3:30 – 5:00 PM Eastern**

**2:30 – 4:00 CST • 1:30 – 3:00 MST • 12:30 – 2:00 PST • 11:30 – 1:00 AK • 10:30 – 12:00 HAST**

As climate change continues to impact both natural systems and communities, nature-based practices can provide an important solution for building climate resilience and provide other benefits. This webcast features professionals from across the country that are conducting nature-based projects to promote climate resilience. Speakers will discuss a variety of work related to the restoration, protection, and management of natural and modified ecosystems.

### Speakers

- **Dan Constable**, Delta Stewardship Council
- **Erin Mullin**, Delta Stewardship Council
- **Christian Rines**, Galveston Bay Estuary Program
- **Julie Dryer Wood**, Charles River Watershed Association
- **Dira Johanif**, Charles River Watershed Association
